Advances in Computational Mechanics

"Introduction to composite and cut finite element methods"

Prof. Mats Larson

*Department of Mathematics and Mathematical Statistics
Umeå University, SE-901 87 UMEÅ, Sweden*
Montag, **26.11.2012**, 13:00-14:00, MW 2250

"Software for automated computing"

Prof. Anders Logg

*Simula Research Laboratory,
Associate Professor at the University of Oslo,
Department of Informatics, N-0373 OSLO, Norway*
Dienstag, **27.11.2012**, 13:00-14:00, MW 1237

"Finite element methods for the Stokes problem on cut and composite meshes - analysis, implementation and applications"

Dr. André Massing

*Simula Research Laboratory, University of Oslo,
Department of Informatics, N-0373 OSLO, Norway*
Montag, **3.12.2012**, 13:00-14:00, MW 1237
