

# Registration Form

## Visualization Techniques in Computational Mechanics (Practical Course)

### **Personal Data:**

Last Name, First Name:

Matriculation Number:

Study Course and Semester:

Email:

Starting:  as soon as possible

on

### **Optional Information:**

You can complete this form with some information about yourself and about your research interests. This helps us to find the most suitable project for you at the Institute for Computational Mechanics. You get a proper overview of our current research fields and projects by browsing through our website ([www.epc.ed.tum.de/lnm/research](http://www.epc.ed.tum.de/lnm/research)).

I am interested in the following research fields of the institute:

I have experience using the following programming languages / visualization tools (e.g. python, C++, paraview, Blender, etc.):

I would like to work on the following visualization techniques:

3D Visualization

Webpage Development

Others:

Virtual Reality

Interactive Plotting Techniques

Previous activities at the Institute for Computational Mechanics:

**Thank you for your assistance! We will contact you as soon as possible.**
